Columbia, South Carolina 29211

RE: Friends of the Earth and Sierra Club, Complainant/Petitioner v. South Carolina Electric & Gas Company, Defendant/Respondent
Docket No. 2017-207-E

Request of the Office of Regulatory Staff for Rate Relief to South Carolina Electric & Gas Company's Rates Pursuant to S.C. Code Ann. § 58-27-920
Docket No. 2017-305-E

Joint Application and Petition of South Carolina Electric & Gas Company and Dominion Energy, Incorporated for Review and Approval of a Proposed Business Combination between SCANA Corporation and Dominion Energy, Incorporated, as May Be Required, and for a Prudency Determination Regarding the Abandonment of the V.C. Summer Units 2 & 3 Project and Associated Customer Benefits and Cost Recovery Plans
Docket No. 2017-370-E

(This filing does not involve any change to the retail electric base rates of Dominion Energy South Carolina, Inc.)

Dear Ms. Boyd:

By Order No. 2018-804 ("Order"), dated December 21, 2018, issued in the above-referenced dockets, the Public Service Commission of South Carolina ("Commission") approved, among other things, the merger between Dominion Energy, Inc. ("Dominion Energy") and SCANA Corporation ("SCANA"). As part of its approval of the merger, the Commission also approved certain merger conditions. One such merger condition requires that:

Dominion Energy will seek to minimize the reductions in local employment, and in particular any involuntary reductions, by allowing some of the Dominion Energy

(Continued . . .)

Services, Inc. employees supporting shared and common services functions and activities to be located in Cayce where it makes economic and practical sense to do so. In any case, it will maintain employees in Cayce when it is in the best interests of [Dominion Energy South Carolina, Inc.'s] customers to do so.

[Order No. 2018-804, Order Exhibit p.7].

In furtherance of this merger condition, Dominion Energy is required to report to the Commission on its progress twice a year until 2021. The purpose of this letter is to provide the Commission and the South Carolina Office of Regulatory Staff (“ORS”) with an update on this merger condition as of June 30, 2020.

As reported to the Commission and ORS in prior reports, Dominion Energy has been focused on integrating SCANA and its subsidiaries, including its employees, with Dominion Energy and this effort continues. Dominion Energy continues to anticipate substantially completing its integration efforts by January 1, 2021.

Dominion Energy continues to take great care to ensure that the services company employees located in Cayce are minimally impacted during integration. As reporting in prior reports, Dominion Energy announced on March 21, 2019, that it was offering a Voluntary Retirement Program (“VRP”) for eligible employees who were 55 years of age or older and had at least three years of service as of July 31, 2019.¹ The VRP, which was offered to Dominion Energy employees across the nation, was designed, in part, to assist with the integration of SCANA, create new growth and career opportunities for employees, and advance the strategic efforts to recruit top talent from diverse backgrounds that will meet Dominion Energy’s future business needs.

On April 26, 2019, Dominion Energy announced that all requests to participate in the VRP would be accepted. A little more than ten percent (10%) of total employees across Dominion Energy requested to participate in the VRP. More specifically, in South Carolina, a total of 1,369 employees from Dominion Energy South Carolina, Inc. (“DESC”) and Dominion Energy Southeast Services, Inc. (“DESS”) qualified for participation in the VRP and of that amount, 294 DESC employees along with 207 DESS employees enrolled in the VRP. Without sacrificing safe and efficient

¹ Prior to the March 21, 2019 VRP announcement, Dominion Energy presented a Voluntary Separation Program (“VSP”), which was similar to that of the VRP, to certain executive administrative assistants who served in roles supporting SCANA executives and officers who had retired or would be retiring in the near future as result of the merger. Ten executive administrative assistants qualified for the VSP, and of those who qualified and worked in Cayce, seven elected to participate.

operations, 487 VRP participants based in South Carolina have transitioned out of the Dominion Energy workforce as of June 30, 2020. As 2020 progresses, seven more South Carolina based VRP participants will exit the Dominion Energy workforce at various intervals. The remaining eleven South Carolina based VRP participants will transition out of the Dominion Energy workforce in 2021.

In addition to the VRP, Dominion Energy continues to transition employees to Dominion Energy Services, Inc. ("DES"). Historically, some of these DES positions have been located in Richmond, Virginia, but Dominion Energy is committed to, where possible, locating and retaining these positions in Cayce. For example, a former DESS employee is now manager of labor relations for all of Dominion Energy; DESS and DESC leaders are active participants in collaborative groups charged with assessing functions that impact all of Dominion Energy; and former DESS leaders are now serving in positions of leadership in both environmental services and natural gas field support which support all of Dominion Energy. In summary, Dominion Energy is working diligently to ensure that its Cayce-based workforce has direct input into the decisions and day-to-day operations of the company by transitioning former DESS employees to DES roles, which impact all of Dominion Energy, and keeping those employees based in Cayce.

To the extent that other DES positions become available, and where it makes economic and practical sense to do so, Dominion Energy will continue to evaluate locating these positions in Cayce. Dominion Energy also remains committed to filling certain open positions with DESS and DESC employees. For the six months ended June 30, 2020, Dominion Energy filled 22 open positions with DESS and DESC employees, 10 of which are located in Cayce and 11 of which are located at the V.C. Summer Nuclear Station near Jenkinsonville.

As of June 30, 2020, 3,546 Dominion Energy employees are located in South Carolina² and of that amount 1,255 are located in Cayce.³

² This amount does not include employees of Dominion Energy Carolina Gas Transmission Company.

³ While Dominion Energy has been working to retain positions in Cayce, it has also been required to eliminate certain Cayce-based positions which were duplicative functions being performed in Richmond. For example, Dominion Energy maintained a corporate secretary's office in Richmond prior to the merger and therefore, it was not necessary for Dominion Energy to maintain a second corporate secretary's office in Cayce after the merger. In early 2019, Dominion Energy instituted an involuntary severance program which removed the Cayce-based corporate secretary's office from its workforce along with certain other duplicative positions. To date, Dominion Energy, DESS, and DESC have eliminated nine Cayce-based positions that are currently being performed in Richmond as well as 22 other positions not based in Cayce.

The Honorable Jocelyn Boyd
